2. BASH SCRIPTING
This was also part of the linux class, but bringing it down here seems right.
Because, it was kind of bukky as a topic on its own
BLOG
NETWORKING (NMAP & WIRESHARK)
Networking in cybbersecurity can be easily seen as the means of commuincation between differentamd several host
We have different topology of Networking which include star topology, bus topology, linear topology etc.
NMAP & WIRESHARK: are the tools that are used in data/packet analysis, in which packets were captured, analyzed, amd info were gotten.
